

Ronald L. Mower (Computer Courses Taught Prior to 1995)

Courses Taught on Microcomputers: (College mostly from 1985 - 1995)

BASIC
BASICA
CBASIC
CPM BASIC
RPG II
LOTUS
MultiPlan
SuperCalc
WordPerfect
WordStar
Texas Instruments WORD (Minicomputer)
Business Accounting Application Packages
Structured Systems Analysis
Microcomputer and Minicomputer Operations
 CPM
 MPM
 DOS
 TI Minicomputer
dBASE III PLUS
DOS Operating System
(Structured Programming in all programming courses)

Courses Taught on Mainframes: (College, RCA Customer and Personnel, Business College - ancient history)

Machine Code
Assembly Language on
 IBM 360/370 (mainframes)
 RCA Spectra series (mainframes)
 RCA 301 (mainframes)
 RCA3301 (mainframes)
COBOL
FORTRAN
Batch Operating Systems (Tape/Disk)
Time-sharing Operating Systems
Troubleshooting Techniques
Computer Operations on
 Multiprogramming Batch/Tape/Disk
 Time-sharing/Communications/ Batch Tape/Disk/(paging) Drum Operating Systems)
Debugging Techniques and Tools
Computer Architecture (RCA and Customers)
Computer Architecture (University of Toledo Adult Education)
